What's New..

Happy 8th Anniversary Bronte Heights!

Anniversaries are milestones where you pause and reflect back on the wonderful memories from your past. As we enter into our eighth year of service, we would like to extend a heartfelt thank you to all of our families, past and present, for their support and encouragement throughout the years.

We are delighted to be part of this community and will continue to work hard to ensure our quality and standards are never compromised.

Embracing our Earth

As part of our Earth day celebrations we have decided to pay homage to our wonderful planet by dedicating an entire day to the Reggio-Emilia approach.

Founder and Psychologist, Loris Malaguzzi believed in self-directed, experiential learning. Reggio-Emilia also incorporates the principles of respect, responsibility, and community through exploration and discovery through a self-guided curriculum. The aim of the Reggio approach is to teach children how to use symbolic languages (e.g. painting, sculpting, drama) in everyday life.

Teachers will be incorporating materials that are open-ended, authentic and natural. These materials have been purposely selected to respond to children's interests, stimulate thinking, support creativity, ignite curiosity and test theories.
